Title: Chief Financial Officer

Collectar to Participate at the Oppenheimer Rare & Orphan Disease Summit on May 21, 2021

FLORHAM PARK, N.J., May 14, 2021 -- Collectar Biosciences, Inc. (NASDAQ: CLRB), a late-stage clinical biopharmaceutical company focused on the discovery and development of drugs for the treatment of cancer, today announced the company will participate and be available for 1x1 meetings at the following upcoming conference:

Oppenheimer Rare & Orphan Disease Summit

Date: May 21, 2021
Time: On demand presentation for registered participants
Available for 1x1 meetings
Webcast: To register, click on the link [HERE](#)

A replay of the presentation will be available on the [Events page](#) of the company website.

About Collectar Biosciences, Inc.

Collectar Biosciences is focused on the discovery and development of drugs for the treatment of cancer. The company is developing proprietary drugs independently and through research and development collaborations. The company's core objective is to leverage its proprietary Phospholipid Drug Conjugate™ (PDC) delivery platform to develop PDCs that specifically target cancer cells, delivering improved efficacy and better safety as a result of fewer off-target effects. The company's PDC platform possesses the potential for the discovery and development of the next-generation of cancer-targeting treatments, and it plans to develop PDCs independently and through research and development collaborations.

The company's product pipeline includes CLR 131, a small-molecule PDC designed to provide targeted delivery of iodine-131 (radioisotope) and proprietary preclinical PDC chemotherapeutic programs and multiple partnered PDC assets.
